

Geology PhD 1998 - 1999

AUTHOR	YEAR	TITLE	DEGREE	Location	1:250,000	1:100,000 NSW (or other state)
GURBA, Lila W.	1998	Coal rank studies in the Gunnedah Basin, New South Wales.	PhD	508		
BECK, Peter H.	1999	Transport of conservative and reactive inorganic elements in the saturated part of a heterogenous sand aquifer, Botany Basin, Sydney, Australia.	PhD	508		
CLARK, D.J.	1999	Thermo-tectonic evolution of the Albany-Fraser Orogen, W.A.	PhD	508	Albany W.A.	
SHEKARFOROUSH, Seyed S.	1999	Groundwater chemistry and hydrogeochemical processes in fractured bedrock aquifers beneath dryland salinity occurrences in SE Australia.	PhD	508		
WANG, X.	1999	Carboniferous Volcanic Rocks of the Rocky Creek region, northern Tamworth belt, southern New England Orogen.	PhD	508	Tamworth	
GEEVE, Richard I.	2000	Palaeomagnetism of the southern Tamworth Belt.	PhD	508		
POST, Nicholas J.	2000	Unravelling Gondwana fragments: An integrated structural, isotopic and petrographic investigation of the Windmill Islands, Antarctica.	PhD	508		
AL-BU SAIDI, Salim H.	2001	Influence of geological setting of source rocks on feldspar production and quality for glass and ceramic industries: A study of selected deposits from Oman and Australia.	PhD	508		
DAIM, Falih Mahdi	2001	Late Cretaceous-Early Tertiary tectostratigraphy of the northern Carnarvon Basin, Western Australia.	PhD	508		

PALMER, D	2001	Digital Processing of Shallow Seismic Refraction Data with the Refraction Convolution Section.	PHD / MSc	508	NSW	
SHEN, Xiactu	2001	Geochemical dispersion in residual and transported regolith in the Cobar region of New South Wales.	PhD	508
