

Diver Safety Induction Acknowledgement Form
School of Biological, Earth and Environmental Sciences, UNSW

Dive Proposals

I understand that an electronic dive proposal form must be completed and emailed to the UNSW Dive Officer *at least* two working days before the proposed dive/s. At the time this is emailed I will text the Dive Officer's mobile phone in order to alert them to the proposed dive. I understand that I will not be permitted to dive until the dive proposal has been assessed and approved by the Dive Officer and I have been notified of this by email.

I have read and understood the Dive Proposal Plan and I understand that an approved electronic dive proposal constitutes a fieldwork notification form.

On-site Risk Assessment

I understand that I must conduct an on-site risk assessment immediately before entering the water. I have read and understood the on-site risk assessment form. I may decide to cancel a dive, if conditions require it. On return to UNSW I will send the on-site risk assessment to the Dive Officer along with any changes that were made to the initial dive proposal.

Dive Manual

I have read and understood the UNSW Scuba Diving Manual and will dive to the regulations.

I understand that standard Risk Assessment forms must still be completed for all fieldwork activities.
