

SITE ASSESSMENT:

Location/ Site:	Henry Head (Botany Bay – Sydney)
Depth:	No deeper than 5m
General Currents:	
Sheltered or Exposed:	Sheltered
Entry and Egress:	Boat Dive
Benthos / Substratum Composition:	Rocky Reef
Dominant Marine Species Identified:	Algae (Sargassum spp.)
Hazards Identified:	Can be exposed to swell – but won't be diving on days of predicted heavy swell.
Closest Medical Institution:	Prince of Wales – Randwick (02) 9382 2222
Additional Special Requirements:	
Directions:	

Travel south on ANZAC Pde. Take turn off to the NSW Golf Club (on left) – La Perouse. Follow road past the clubhouse and take fire trail out to Henry Head. We will be diving from a boat (Zodiac) therefore we will not be accessing the dive site by shore. The boat will be launched at Penrhyn Road boat ramp (take Penrhyn Road off the junction of Foreshore Rd and Botany Rd).

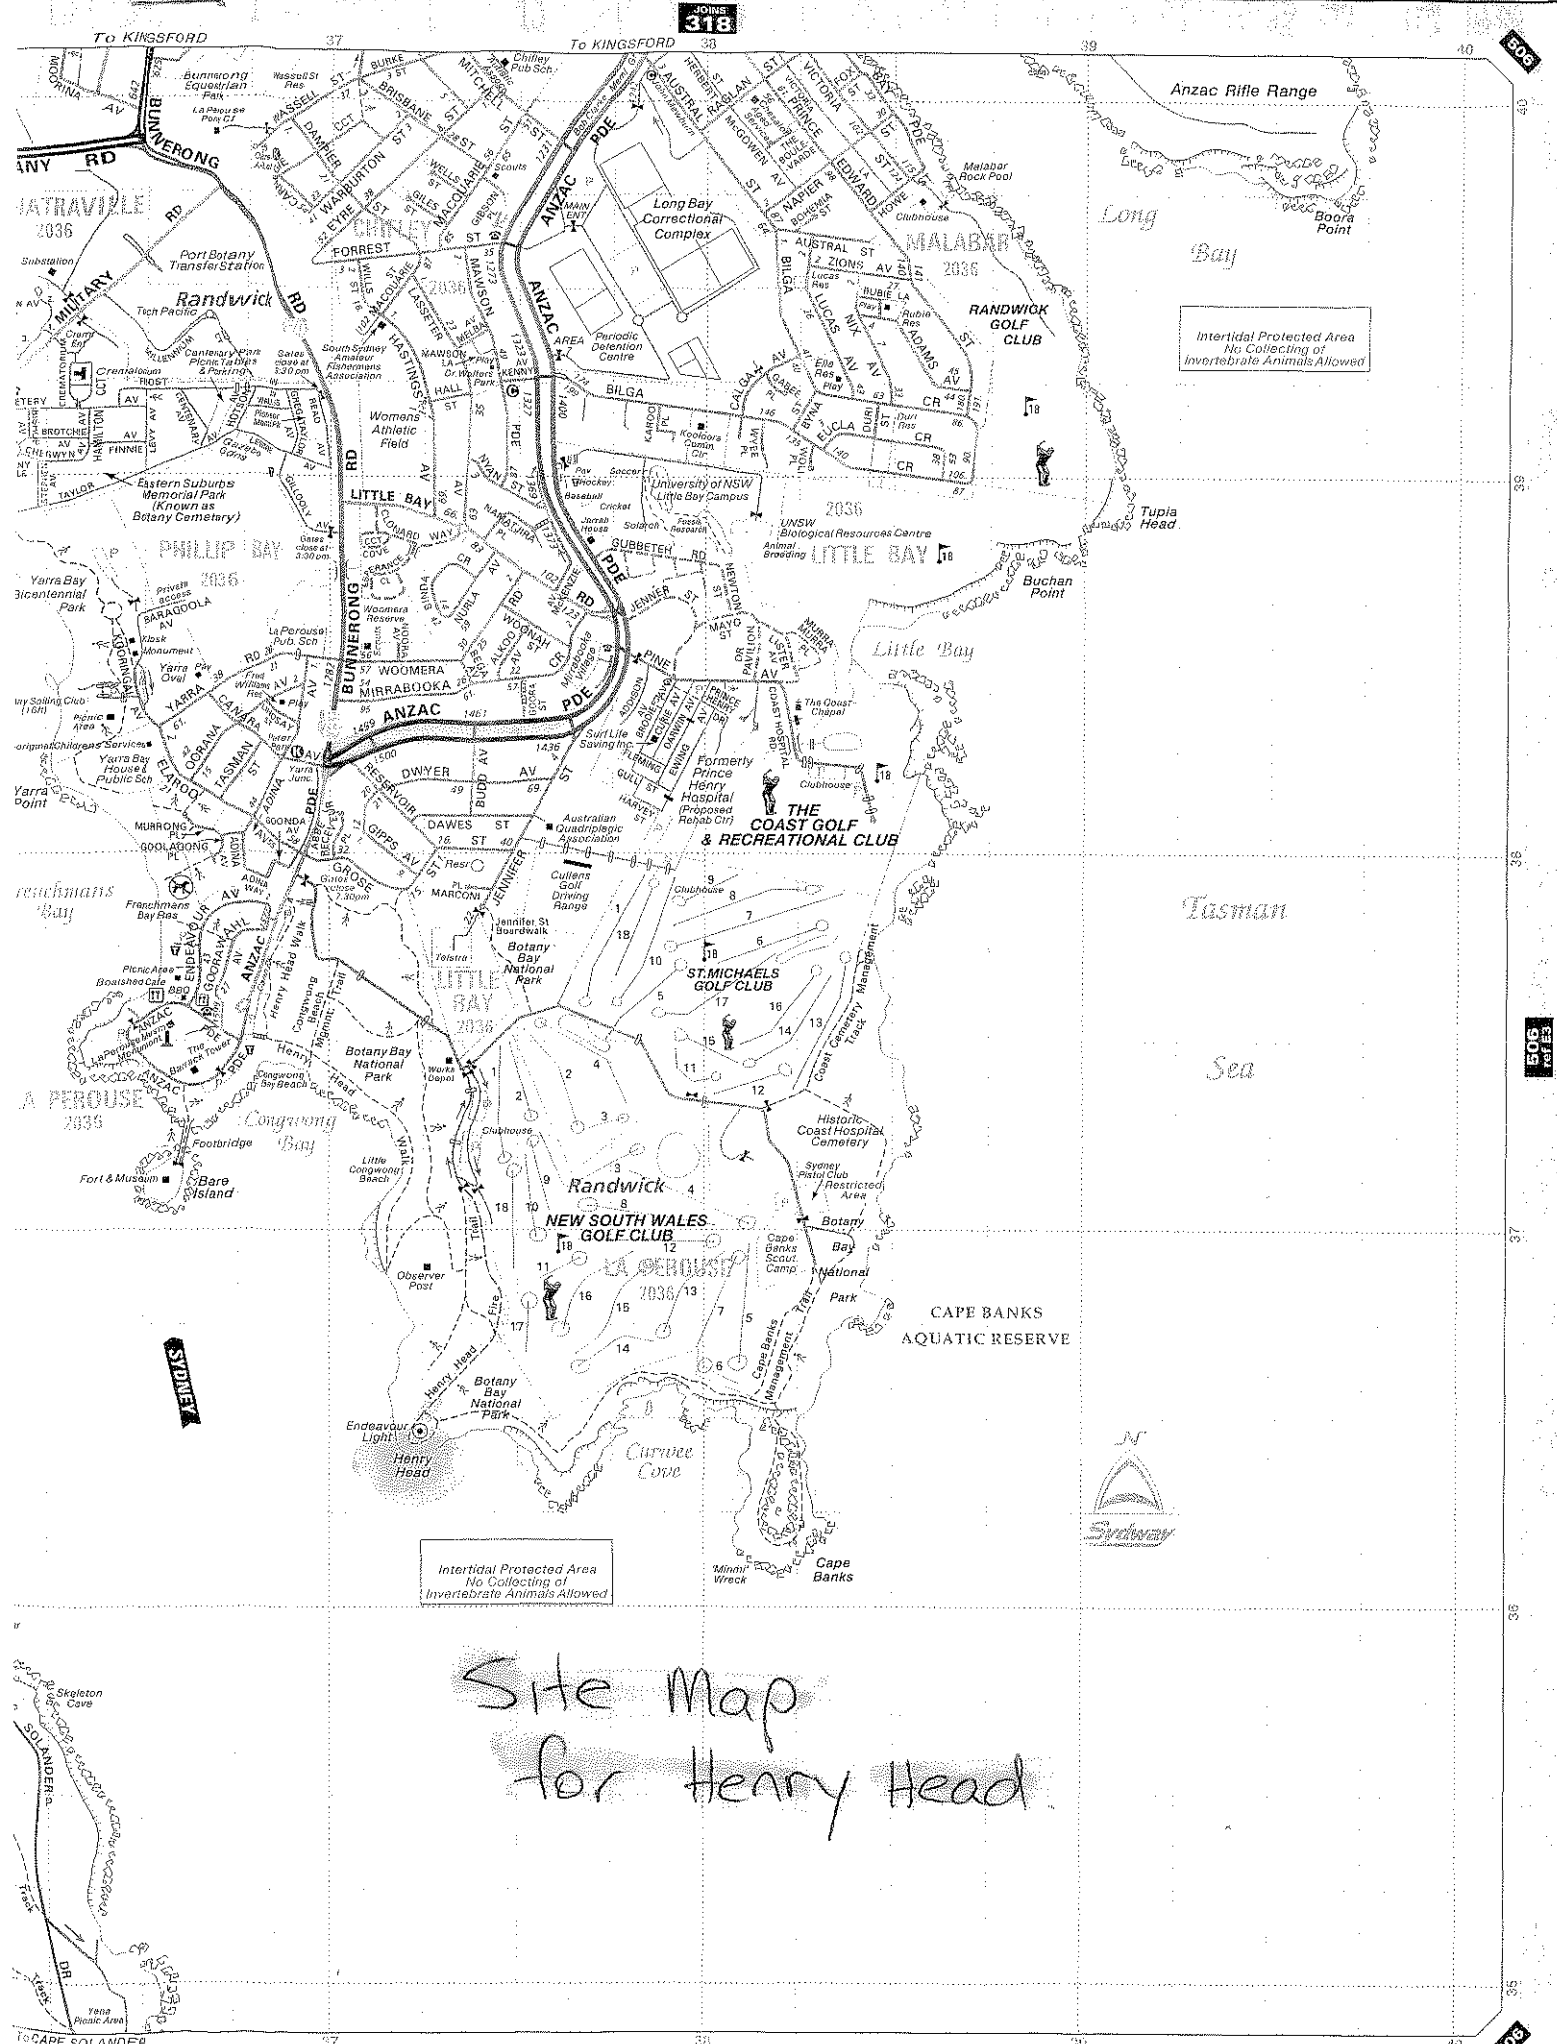

Please refer to Page 338 Grid Reference E15 of a Sydney 2006 Sydney street directory for map reference. Hard copy of this map is in Kate Stuart's UNSW pigeon hole. Please attach this map to the site assessment document once received.
