Be careful when you do a FA course at a dive shop, as many of them are now issuing International certifications that we cannot accept. But if you speak to the dive shop beforehand, they should be able to ensure you get the Australian certification and issue a Statement of Attainment. They just need to adjust their course slightly to meet our requirements. Make sure you get a ‘Statement of Attainment’.

Oxygen Provision Course

- Half day course.
- Code: HLTAID007
- If you do course called ‘Advanced resuscitation’ it includes CPR as well (HLTAID001)
- Valid for 1 year.

Option 1: Occasional course run at UNSW. Normally in Jan/Feb and May.

Option 2: Book through external provider. I recommend:

NOTE: If you need First Aid and Oxygen, you could do the combo at Sydney Dive Safari for approx. $270
